

# ALLEVYN PRODUCT LINE: Application and Removal

## Allevyn Gentle Border Lite: Use for a scant amount of exudate.

### Application

- Start to remove the protector material from ALLEVYN GENTLE BORDER LITE Dressing

- Anchor the adhesive side of the dressing to the skin

- Smooth the dressing over the wound, removing the remaining protector material

- Ensure that the dressing is adhered all around the wound

Indicated for up to 7 days or when exudate reaches within 0.5 cm from the edge of dressing.

5cm x 5cm (absorbent pad size 3cm x 3cm), 10cm x 10cm (absorbent pad size 7.5cm x 7.5cm), 15cm x 15cm (absorbent pad size 12.5cm x 12.5cm).

## Allevyn Gentle Border: Use for low to moderate amount of exudate or skin tears, or where dressing will be changed frequently.

### Application

- Cleanse the application site, ensuring the dressing is clean, dry and free from excess hair.
- Select the appropriate dressing size (ensure the absorbent pad covers the entire wound).

- Peel back the first liner of the dressing, and apply the adhesive side of the dressing to the skin.

- If necessary, the dressing can be repositioned as required.

### Formulary Sizes:

Indicated for up to 7 days or when exudate reaches within 0.5 cm from the edge of dressing.

10cm x 10cm (absorbent pad size 7.5cm x 7.5cm), 12.5cm x 12.5cm (absorbent pad size 10cm x 10cm), 17.1cm x 17.9cm (absorbent pad size 11.6cm x 12.3cm).

## Allevyn Life: Use for moderate to large amount of exudate or skin tears.

### Application

- Peel the protectors from the centre, without removing completely
- Centre the dressing
- Anchor some of the border on the peri-wound
- You can use your fingers to help the placement of the border
- Take hold of one of the partially peeled protectors

- Remove remaining Liner / Liners
- Smooth over
- If on a wound ensure absorbent pad covers the wound.
- Do not stretch the dressing.

- Gently shape the pad on/around the body part, without stretching it
- Gently peel away the other two lobes of protector, while laying the border down
- Do not stretch the border, pat it down

Indicated for up to 7 days or when exudate is visible in 3 out of 4 lobes.

12.9cm x 12.9cm (absorbent pad size 7.6cm x 7.6cm), 15.4cm x 15.4cm (absorbent pad size 10.2cm x 10.2cm), 21cm x 21cm (absorbent pad size 15.4cm x 15.4cm).

## Allevyn Non-Border: Use for a moderate amount of exudate, requires secondary fixation.

### Application

- Remove ALLEVYN NON-ADHESIVE Dressing from the pack

- Apply the white face to the wound ensuring good contact.

Indicated for up to 7 days or when exudate reaches within 1.5 cm of dressing edge.

Formulary Sizes:  
10cm x 10cm, 15cm x 15cm.

## Allevyn Adhesive Classic: Use for a moderate amount of exudate.

### Application

- Select appropriate dressing, prepare and clean the skin surrounding the wound area.

- Remove one of the protector films from ALLEVYN ADHESIVE and anchor the adhesive side of the dressing onto the skin.

- Remove the remaining protector film and smooth the dressing over the remainder of the wound without stretching, ensuring there are no creases. The pad area of the dressing must be adhered across the entire surface of the wound.

Indicated for up to 7 days or when exudate reaches within 0.5 cm from the edge of dressing.

### Formulary Sizes:

12.5cm x 5cm (absorbent pad size 10cm x 10cm), 17.5cm x 17.5cm (absorbent pad size 15cm x 15cm).

### Removal:

To remove the dressing, lift one corner of the dressing and slowly peel back until completely removed from the wound.

**Do not use foam on feet!**
